

Digital Footprint Reflection and PEA Paragraph Worksheet

Learning Objectives:

- I can explain how digital footprints affect my online presence.
- I can analyse how small pieces of data can be combined to reveal personal information.
- I can develop strategies to protect my personal data and minimise online risks.

Success Criteria:

- **All:** Can recognize that sharing personal information contributes to a digital footprint.
- **Most:** Can analyse how shared data can reveal more about an individual than intended.
- **Some:** Can propose strategies for minimising personal data exposure online.

Reflection Questions:

1. **How did creating an avatar help me understand the concept of a digital footprint?**

2. **What surprised me during the 'Guess the Person' activity?**

3. **What steps will I take in the future to better protect my personal data online?**
